Additional Sanitary Inspectors etc for the Davangere City Municipality

Letter No. SHC 133/47-48 dated the 8th/9th May 1948 from the Municipal Commissioner, Davangere City Municipality on the above subject

The Municipal Commissioner, Davangere City Municipality states that two additional Sanitary Inspectors (Junior grade) and one Vaccinator are necessary for the Municipality to cope with the work, as the existing staff is not sufficient He requests that the Director of Public Health may be addressed to pass the above hands immediately A Copy of the Resolution dated 2nd 3 48 of the Davangere City M. C. in the matter is also attached

2) The existing strength of the staff is Two Sanitary Inspectors on Rs 35-2-5-5-4-87 and (old/new)
one Vaccinator on Rs 25-(fixed) as shown in the Computation proposals submitted for revision & establishment of the Municipality which are separately under submission (D 6819) In the proposition statement sent with the above proposals, provision has been

made for 2 Sanitary Inspectors on Rs 80-4-120 (Lemon grade) and 2 Sanitary Inspectors on Rs 45-3-90 (Lemon grade). The extra cost on this account being Rs 249-12-0 per month one additional Vaccinator has also been provided in the Revised proposals on Rs 40-2-50-3-80, the extra cost being Rs 63-5-0 per month on this account The Comprehensive proposals provide for revised grades on the higher scale and hence, the extra cost under "Vaccination staff" is Rs 101-10-0 per month, the pay of Rs 25- of the existing vaccinator being also suitably revised to Rs 40-2-50-3-80

3) Submitted for orders whether the Dr. of Public Health may be addressed in the matter the Davangere City M.C. has resolved that appointments may be made, pending sanction of Govt to the additional staff, in view of urgency

6) Taking the dimensions, the population of the City and the existing sanitary staff into consideration, the appointment of two more Sanitary Inspectors asked for, is by no means too many

7) As there was no special Health Officer for the

ML 6817

for the City so far, it is difficult to state accurately the correct requirements for this place. A second class Health Officer has renently been posted and a report of the requirements will be called for from him after he has had time to study the needs of the City In the meanwhile, however, the two Junior Sanitary Inspectors asked for by the Municipality may be sanctioned It is expected that this addition ~~is~~ will be far from adequate

8) Regarding the entertainment of a Vaccinatrix, firstly, it is doubtful if she will be of much use to the Municipali and secondly it is unlikely that this class of personnel can at present be made available, even ^ one should be sanctioned. In this connection it is suggested (as already recommended to Government elsewhere) that it will be more useful if a Junior Sanitary Inspector is appointed instead and the vaccination work ~~is~~ entrusted to him, He will be of more use to the Municipality
